- Travel agent: You may like to go somewhere in Europe, then, because you can travel by car or train.
- Customer: That might be an idea. But I must think about the others in my family too – and we don't all like the same things!
- Travel agent: Well, you should have a look at some of our brochures and then tell me which places you are interested in.
- Customer: OK, well I'll take some brochures home with me so I can show my family.

Hi, my name's Jerry and my bedroom's great. It's not like a lot of teenage bedrooms. My bedroom is very small, and it is always tidy. There are two small closets behind the door, and all my clothes and shoes are in them. There aren't any windows in my bedroom and there aren't big walls to put posters on. There is a big box under my

bed. My books and my toys are in the box. So, where is my bedroom? It isn't in a house... it's on a boat! And the boat's on a river – so my bedroom is on a river.

Hello and welcome to this guided tour of Dorothy Chadwick's house – one of England's most famous artists. As you can see, her house wasn't very big. It has only one bedroom upstairs, and a small bathroom. Downstairs, the house doesn't have a dining room. There is just a small table in the kitchen. This is Dorothy's living room. It has two large chairs and a very large window out onto the garden. As you can see, the garden is big and beautiful – full of lovely flowers.

I'm Sue and I'm one of the people who cooks the school meals at Sutton High School. It's a great job. I love cooking. I like making different meals every day. We always make four different meals for the children to choose from. And we always try to cook food that the children like. We cook a lot of vegetables, and there is always one meal with meat and one with fish every day. We don't give the children things like burgers because we want the children at Sutton High to eat food that's good for them. One of the favorite meals here is a big plate of meat and vegetables. But there are always sandwiches for children who aren't very hungry. The children at Sutton High love coming into the dining room for their lunch!

And the match is starting – The Reds versus The Blues. And look at that kick! Bingham is running up the field already and... yes, he's kicking the ball to Blake and Blake's running and he's running and... it's a goal! Amazing – in the first two seconds of the match – a goal for The Reds!!!! Now the other players are waiting for the ball... and Gregory is chasing the ball... and he's kicking to Martin. But look, Blake is shouting at the referee. What's happening? The referee is blowing his whistle and... showing Blake the yellow card! No... it's a red card! He's telling Blake to leave the match! One of the players for The Reds – Wilson – is saying something to the referee... he's asking, "Can Blake play for five more minutes?" Oh no, now the referee is showing HIM a yellow card. What a crazy game this is!

Hi, I'm Debbie and my hobby is ice skating. I usually go ice skating three or four times every week, and I always go on Saturday afternoons. Some of my friends like ice skating too, so I often meet them when I go. Yesterday, for example, I was at the ice

rink for four hours, and three of my friends were there as well. My best friend, Geraldine, is usually there when I go skating, but yesterday she wasn't there. She was on holiday with her parents in London. I love ice skating. I don't have my own ice skates – but these days I'm saving my money to buy a pair.

Hi, I'm Sue. The other day I talked to my grandparents about what life was like when they were young. They told me they didn't do much in their free time. My grandmother, Rose, spent a lot of her time at home helping with the housework and the cooking. She didn't go out in the evenings with her friends and she didn't have things like a computer or a smartphone. My grandfather, Victor, went to work when he was fifteen and he said life was hard. He didn't get a lot of money from working and he gave his mom money for food. So he didn't have money left at the end of the week to go out with his friends. Life in those days didn't sound like a lot of fun.

Okay. Now we're leaving tomorrow for Turkey so I want to remind you all of a few other rules with that. First and most important, if you want to leave the hotel for any reason, you must tell a teacher. So we always know where you are and who you're with. If you go out for dinner in the evening, you must be back in the hotel by eight p.m. Not latter. You must give your passports to a teacher when we arrive at the hotel. So we always have them with us. If you go out, you must always have your mobile phones with you and switched on. And I shouldn't need to tell you... please

do not talk to any strange people in the street. Right. I think that's all. Now... any questions?
